- Expose to Kali Linux OS and the terminal
- Proficient in Microsoft Access and Microsoft Office
- Applied ML models using Scikit-learn for data analysis and prediction tasks
- Financial Statement Analysis
- Fluent Bilingual (Vietnamese and English)

RELEVANT EXPERIENCE AND COURSEWORK

Research Project Omaha, NE
A Conceptual Model of Trust in Generative AI Systems April 2024 – Present

- Explored factors that influence user trust in Generative AI
- Reviewed literature papers and properly formatted citations according to required style
- Proposed the model to analyze trust in Generative AI
- Developed survey scenarios and questions to test the hypotheses

Educational Projects Omaha, NE
Participated in BlueBox Project, a Raspberry Pi Device storing offline educational lessons Fall 2024

- Developed an interactive shape quiz module containing 2D and 3D questions with visualizations
- Configuring a camera for live streaming by researching the latest packages, and commands and modifying the source code
- Created HTML code and text editors with offline access, enabling users to code, create, edit text and save works as .html files
- Built a custom financial tracking tool to help a nonprofit business manage and improve financial performance

Creighton Analytics and Institutional Research Omaha, NE
Intern at Creighton University's Analytics and Institutional Research Fall 2024 – Present

- Improved code quality using JavaScript to enhance the user interface and created meaningful dashboards using Tableau
- Utilized Python and other methods to manipulated data to generate desired dataset structures
- Tested connections between the Database Management System and Tableau using terminal, SSH, tunneling and Python
- Built a predictive model using Scikit-learn (Python library) to forecast Creighton University's future rankings
- Designed and developed an interactive interface to visualize predictions and enable user-driven analysis

Creighton University Communication Center Omaha, NE
Tutor in Communication Center October 2022 – Present

- Assisted students in discovering topics, developing outlines, and forming strong thesis statements for assigned speeches
- Guided students in creating visual aids (PowerPoint, videos, graphs) and supported them in managing speech anxiety

Business Analytics Coursework Omaha, NE
Student in Data & Information Management, Python Programming for Data Analytics, Cybersecurity, System Analysis and Design Spring 2022 – Fall 2023

- Developed a functional website connecting to the database for Creighton Career Center to track and manage student internships
- Utilized Pandas, Matplotlib, and Python to analyze, interpret and make conclusions and predictions for the dataset
- Exposed to database security issues such as SQL Injections and simple methods to mitigate vulnerabilities
- Employed Kali Linux and its terminal for ethical penetration testing, and scanning for vulnerabilities

ACTIVITIES AND SERVICES

- Secretary in Applied AI Club February 2023 – Fall 2024
- John and Carol Maginn Scholarship Fall 2023 – Spring 2024
- Matteo Ricci Scholarship Program August 2021 – May 2025
- Raval Vasant Endowed Scholarship Fall 2024 –Spring 2025
- BlueBox Project Fall 2024
