RELEVANT EXPERIENCE

Coach.Win – Business & Leadership Coaching

Omaha, NE

AI Automation Specialist

July 2025 – Present

- Architected and deployed AI agents running across multiple surfaces, including scheduled tasks in Claude Cowork, Microsoft 365 Cowork, and schedulers built into the firm's own applications
- Designed reusable brand voice and visual identity skills for clients to produce on-brand deliverables without redoing branded documents from scratch
- Built the firm's go-to-market engine, a scheduled multi-agent system that qualifies inbound prospects for weekly outreach, monitors competitors and market developments, surfaces target accounts from trade show listings with tailored talking points, and drafts LinkedIn posts, blog articles and newsletters from uploaded documents
- Developed an intelligent document processing pipeline, combining Custom GPT, n8n, and Excel to automate tank inspection report generation from raw photos and field data, replacing a multi-hour manual process
- Built Value Compass, a web application, enabling users to input corporate initiatives and generate AI-driven insights linking them to underlying value drivers and strategic alignment, deployed via GitHub and hosted on Cloudflare

Creighton University Analytics and Institutional Research

Omaha, NE

Data Analyst Intern

September 2024 – May 2025

- Built a Tableau dashboard analyzing US News ranking criteria to assess Creighton's performance, helping the provost identify areas for institutional improvement
- Automated data cleaning for 800+ records using Python, streamlining a manual process and reducing preparation time by over 85% to support faster, more efficient analysis and reporting
- Established a secure connection between Tableau and the DBMS using SSH tunneling, terminal, and Python, laying the groundwork for real-time updates to support dynamic data access for faculty
- Developed predictive models in Scikit-learn to forecast Creighton's 2026 US News ranking, with an interactive interface allowing users to adjust metric weights and view projected outcomes dynamically

Creighton University Communication Center

Omaha, NE

Public Speaking Tutor

October 2022 – May 2025

- Assisted students one-on-one across three academic years through topic development, outlining, thesis construction, and visual design, helping anxious speakers build delivery confidence

PROJECTS & RESEARCH

A Conceptual Model of Trust in Generative AI Systems

April 2024 – Present

- Developed and proposed a conceptual model of the factors driving user trust in generative AI, presented to research advisors for integration into the project
- Designed survey scenarios and crafted questions to collect participant data for testing research hypotheses

BlueBox Practicum Course

Fall 2024

- Contributed to the BlueBox Project, built offline educational tools for underserved communities in the Dominican Republic, including an interactive geometry quiz, offline code editors, financial tracker, and live-streaming camera configuration on a Raspberry Pi device

SKILLS & TOOLS

- **AI & Automation:** AI agent design and deployment, LLM APIs, prompt engineering, Claude Code/Cowork, Custom GPTs, Codex, Copilot Studio
- **Workflow Automation:** n8n, Power Automate
- **Analytics & BI:** Power BI, Tableau, JMP, Microsoft 365
- **Machine Learning:** Scikit-learn - Random Forest & Gradient Boosting
- **Programming:** Python, SQL, JavaScript, PHP, HTML/CSS
- **Developer Tools:** GitHub, Vercel, Cloudflare, CLI, SSH, Kali Linux
- **Business:** Financial statement and operational analysis
- **Languages:** Fluent in Vietnamese and English
